CAREER GOALS

I want to learn experience and change myself to become Professional Full Stack. Know how to develop and operate a large system.

TECHNICAL SKILLS

FRONT END	BACK END
HTML - CSS - JS	NodeJS - NestJS, Express
React	PHP - Laravel
VueJs	MySQL
JQuery	Postgres

FAMILIAR

Jira	Docker
Github | GitLab	Linux

CAPABILITIES / SKILL

Complex problem solver

I have debugged difficult issues in the project and tried to fix it

Team work

I worked with a team with 10+ members, understood how to work together and solve problems, share information among project members.

Research

I have researched methods to complete project requirements and I was able to learn new technologies

Working remotely

Learned how to work and communicate effectively with team when all worked remotely

Mentor

Mentored and coached team members to solve their technical issues and workflow issues.

SUMMARY

Experienced with all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages including NodeJS, PHP. Strong background in project management. Passionate about programming, able to self-learn new technologies to refresh themselves and supplement specialized knowledge.

EXPERIENCE

Now

LAIDON VIETNAM
